

Brand Mint — Hyderabad

BRAND IDENTITY KIT · V1.0

The studio identity *system*

Logos, colour, type, placement, and the video/UGC ad spec — everything needed to keep Brand Mint production-ready across film, social, and print.

The mark & its variants

A mint-gradient circle holding a single-stroke **M** that reads as both the letter and a rising graph line. Full lock-up = mark + wordmark “Brand Mint” + city tag “— Hyderabad”.

Clear space, sizing, don'ts

Clear space

Reserve clear space equal to the height of the **M-stroke** on every side. Nothing — text, image edges, illustration — encroaches.

✓ Do

- Keep the gradient direction top-left → bottom-right.
- Use a translucent backdrop over photography/footage.
- Pair mint CTAs with ink text on paper.
- Let gold stay quieter than mint, always.

Minimum sizes

Primary lock-up	120px / 32mm
Wordmark only	96px / 24mm
Monogram	16px / 5mm
On-screen 4K bug	≥ 64px

When to use which

Light bg → primary. Dark bg → primary-dark. Logo strips → wordmark. Square/avatar → monogram. 1-colour → monogram-mono.

✗ Don't

- Recolour the gradient — use a mono variant instead.
- Stretch, skew, rotate, or outline the mark.
- Add drop shadows or bevels.
- Place the mark on busy footage with no backdrop.
- Change the wordmark font (Plus Jakarta Sans 600).

Palette & tokens

Primary — Mint

Neutrals

Dark interlude

Accent

Pairing & accessibility

Light pages: Paper bg → Ink text → Mint 3 CTAs → one gold flourish. Dark: Ink gradient → Cream text → Emerald CTAs → gold for serial numbers. Never set Mint 3 and Gold side-by-side at equal scale. · Ink on Paper 14.6:1 AAA · Mint 3 on Paper 3.4:1 (AA @18px+) · White on Mint 3 3.0:1 (buttons ≥16px bold)

Documentary ad spec sheet

Look & grade

- Netflix-doc LUT: teal-emerald shadows, warm cream highlights, rich blacks.
- 35mm prime, T1.8, slow push-in, 4K / 24fps.
- 3-point light: 5600K soft key, 3200K warm fill, **mint #10B981 rim**.
- Ultra-HD skin — real texture, no plastic smoothing.

Deliverable formats

Master	16:9 · 3840×2160
Reels / Shorts	9:16 · 2160×3840
Feed	1:1 · 2160×2160
Duration / FPS	10s · 24fps
Audio	48kHz · -14 LUFS

On-screen logo & text placement

0:02 LOWER-THIRD

Bottom-left. **Brand Mint** (Plus Jakarta 600, cream) + “Digital studio · HITEC City” (Inter 400). 4px mint underline wipes in.

0:06 HEADLINE

Upper-left negative space. “We mint brands that *compound*.” One word mint italic.

8.5s END CARD

Paper card, **primary.svg** centred, brandmint.studio (mono), gold rule above city tag. Monogram bug bottom-right from 0:02.

Safe areas: all text within 90% title-safe; lower-third above bottom 12%. Bug ≥ 64px @4K, 40-60% opacity. Keep AI-burned text out — composite logos in post so they stay crisp.

Voice on camera

“We don’t hand you files. We hand you brands that *compound*.”

Founder-to-founder, calm, specific. Indian-English warmth. Lead with a number, italicise one word, sign off “— Brand Mint, Hyderabad”.

Master video prompt

Netflix-style documentary cinematography, photoreal, ultra-HD. A confident founder-presenter [USE ATTACHED AVATAR — exact likeness, face-locked] in a minimal premium studio in HITEC City, Hyderabad.

SKIN: hyper-real texture, visible pores, subsurface scattering, no plastic smoothing, tack-sharp eyes, 4K crispness.

ENVIRONMENT: deep emerald-ink walls (#0B1F1A), cream accents (#F5F1EA), bokeh mint dashboards behind, volumetric haze, mint gradient glow.

CAMERA: 35mm prime, T1.8, slow push-in dolly over 10s, gimbal-smooth, rack focus to eyes by 2s. ARRI Alexa look, 4K, 24fps.

LIGHTING: 3-point — 5600K soft silk key L, 3200K warm fill R, crisp emerald-mint (#10B981) rim, one mint practical glow. Low-key premium Netflix-doc mood, catchlights in both eyes.

GRADE: teal-emerald shadows, warm cream highlights, rich blacks, fine 35mm grain. Palette mint #10B981/#7CF6C8, ink #0A0E0C, paper #F5F1EA, one gold #C9A14A accent.

BEATS (10s): 0–2 profile → turn + focus; 2–6 push-in + line to camera; 6–8.5 confident micro-nod; 8.5–10 held hero frame, negative space upper-left for logo.

NEGATIVE: plastic/waxy skin, over-smoothed, beauty filter, warped hands, text artifacts, watermark, logo distortion, oversaturated, low-res, cartoon, 3D-render look.
